

Week 1 - Creation

Hello everybody—We are starting an exciting new activity today. We are going to be looking at the bible, starting at the very beginning and hearing lots of interesting stories. This will help us to learn all about God and his relationship with us as human beings caring for the earth.

Each week there will be a story, some songs, games, craft and activities for us to do together - and we will be able to put the pictures we have made into a book to eventually make our own bible.

Creation Story

[https://www.youtube.com/watch?v= PBpCA2nxG8](https://www.youtube.com/watch?v=PBpCA2nxG8)

Please stop on video timeline 2:16 (following part of story for next time!)

Activity: Make a paperclip butterfly

Take a butterfly outline. Decorate the butterfly by painting or with crayons. Once you have finished, stick the butterfly onto a wooden peg using glue or double sided tape.

That was a really cool story wasn't it. How amazing that God made everything from the tiniest insect to the whole of the sea. When you look at the craft you made today it will help you remember all the things that God made.

Next week we will find out what happened next, in the beautiful world that God said was so good.

Praise time: Lets sing and dance together

Scavenger Hunt Game

Hunt for the pictures from the different days of the creation story, and see if you can remember which day they were created on.

Prayer. Thank you prayers for things God created.

Display the large picture of our world, and stick the smaller pictures to it. say 'Thank you God for...' as you place the picture onto the map of the world.

Creation scavenger hunt. Before you start hide pictures ready for the children to find later.
